LONDON INSTITUTE OF BANKING & FINANCE

Diploma in Financial Advice

2016

TRAINING

Completed a 3-day training course in Node.js.
Completed a 3-day training course in Typescript.

2022 - Present

PROFILE

I'm a dedicated Software Engineer at the BBC, specializing in frontend development with a strong command of React.js. My commitment to quality is unwavering, as I champion Test-Driven Development (TDD) and Behavior-Driven Development (BDD) to ensure robust and reliable applications.

Fuelled by a passion for learning and software engineering, I'm constantly exploring the realm of Artificial Intelligence (AI) to elevate user experiences and streamline processes. My work is a testament to my drive for excellence and my enthusiasm for contributing to the BBC's mission of delivering exceptional digital content to a global audience.

EXPERIENCE

SOFTWARE ENGINEER

BBC

November 2022 - Present

Tech Stack: React, Node.js, Jest, TypeScript, GraphQL, SQL & Express

- At the BBC, I specialize in developing React components for both frontend and backend systems. Notable achievements include migrating legacy systems to modern infrastructure, executing successful Node.js migrations, and providing off-hours support.
- Participate in code reviews and other quality assurance activities to ensure that all software is of the highest quality.
- Communicate clearly and effectively with stakeholders, both within the engineering team and across the wider organization, to ensure that everyone is on the same page and that projects are delivered successfully.

FULL STACK BOOTCAMP STUDENT/ WORKING FULL TIME

University of Birmingham

April 2022 - September 2022

- Completed an intensive coding bootcamp focused on full stack web development, gaining experience with technologies such as HTML, CSS, JavaScript, React, Node.js, and databases.
- Proficiency in using version control systems, such as Git, for code management and collaboration.

MORTGAGE SPECIALIST/ FINANCE

Santander/ Various

February 2015 - September 2022
